Emplacement temporaire Caroline

A delightful outing for all the family at the Grotte de Comblain!

A natural jewel in the Ourthe Valley, the Comblain Grotto is awe-inspiring with its impressive concretions.

The guide will take you on a wonderful journey underground, where passion, respect and discovery are revealed throughout the rooms and galleries.

Thanks to dynamic educational models in the reception building, the formation of the caves is no longer a secret to young and old alike.

The guide explains :

- the formation of limestone at the bottom of the sea
- the movements of the continents and the appearance of fissures,
- the work of water and the slow dissolution of limestone,
- the creation of stalagmites, stalactites and other colourful draperies.
